

Your Privacy is Important to Us - *and* You!

Data security is a continual concern to individuals and businesses alike. It is in the headlines every day. At MPB we take data security very seriously. Below are some of the steps that our firm takes to manage your personal information.

Regular employee training

Ongoing client education, tips and notices to our clients

U.S.-based cloud computing with redundant back-up systems through our IT provider

Internal controls on paperwork - locked and secured

Client call-back verification for any emails, faxes and letters received to change email address, mailing address, and phone numbers

Third-party vendor reviews of privacy policies and internal controls

Encrypted password vault for all firm passwords

Encrypted email and vault for file sharing

Monitoring of employee access to key systems

Client-approved verification forms for sending data to interested parties

Cyber Security Insurance
